

ACCESSING YOUR OUT-OF-NETWORK BENEFITS

with Advekit

1

Create an Account

Search Jacqueline Abeling in the "Find My Therapist" function and create an account. A credit/debit or HSA/FSA card is required, but will *NOT* be billed unless you agree to use Advekit to pay for sessions.

NOTE: This service is a courtesy for all Embodied Journeys clients, there is no additional cost to you.

2

Verify Your Benefits

Enter your insurance information and Advekit will check your insurance plan and let you know the portion for which you will be responsible. Occasionally, the process may need to be completed by an Advekit representative manually, in which case they'll notify you in a few days.

3

Notify Your Provider

If you have OON benefits and you elect to use Advekit to pay for sessions, notify your provider and they will begin billing at the next eligible session.

4

Payments Made Through Advekit

Your provider will notify Advekit of each completed session and your card will be billed the amount for which you are responsible. Advekit then pays your provider the session fee and awaits reimbursement from your insurance company. Both you and your provider continue focusing on your sessions, while Advekit deals with insurance.
